

The Supper Club turns 1!

TLC Aged Care's home The Belmont celebrated the 1st anniversary of The Supper Club – families and friends gathered in the Sutcliffe entertainment lounge to dance, sing and party the evening away.

The Supper Club has become the highlight of the vibrant activities calendar since its inception 12 months ago.

Claire Fry, manager of TLC The Belmont commented “We don't really need an excuse to have a party – and The Supper Club is a great example, we just want to have fun. We've got 6 generations in the room tonight – from 5 years old to 100 – everyone's welcome. One of our guests has traveled all the way from Darwin for this”.

The action packed evening was filled with music, dancing, the monthly raffle and more. A highlight of the evening was a giant birthday cake lovingly crafted by Georgina.

Mr. John Wilson has called The Belmont ‘home’ for over a year now and has watched The Supper Club grow over the past 12 months. “The success of this evening is a combined effort. Everybody works together and we make sure we have fun. The best part is that we get a feeling of being a part of a great big happy family. What could be better than that”?

Company founder and Chairman Dr John Leaper and wife Jenny joined in the fun. “Our commitment to our families goes far beyond simply providing great care. We have a responsibility to care about the social and lifestyle aspects too. The Supper Club is a fine example of our philosophy of making the most of every day”.

And the words of the lovely Pat Oehme, pictured here dancing with Tini, sums it all up... “It's just a great big, happy family having a party. I love every second of it and can't wait for next month.

The Supper Club is now a regular monthly activity at all 9 TLC Homes.
